Petition Supporting Public Services in Dorset

We, the undersigned, are extremely concerned by the Dorset County Council intension to impose £40 million cuts to services and jobs across Dorset. We request that:

- We call on Dorset County Council to hold an open public debate to stop the cuts to jobs and services.
- We ask all Dorset MPs that represent constituencies throughout Dorset to go back to the coalition Government to increase the grant support to Dorset County Council, and to report their efforts back to their constituencies.
- We ask Dorset County Council to call on the Local Government Association to urge them to open up meaningful negotiations with the Government to stop such deep and damaging cuts to jobs and services.
